Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-23 are rejected under 35 U.S.C. 102(e) as being anticipated by Ouchi (US6597713).

With respect to claims 1-5, 8, 14-18, and 21-23, Ouchi shows in Fig.21 and 30 an integrated VCSEL and power monitor assembly comprising a VCSEL 21, an etched cavity Si substrate 160, a light sensor 283, an optical fiber 143; wherein the VCSEL is attached to the substrate.

With respect to claims 6-7, Ouchi shows in Fig.21 a metal contact 112 (electrode).

With respect to claims 9-11 and 19, Ouchi shows in Fig.21 an optical element 161.

With respect to claim 12, Ouchi discloses epoxy (col.16, l.16-17).

With respect to claims 13 and 20, Ouchi shows in Fig.30 a light beam controller 287.

Response to Arguments

Applicant's arguments filed 01/15/04 have been fully considered but they are not persuasive.

Applicant argues that the Ouchi reference fails to teach a semiconductive substrate having an etched cavity along a light path of a VCSEL, wherein a light sensor is on the semiconductive substrate. The examiner does not concur because the Ouchi reference clearly discloses in Fig.19 and 21 a semiconductive substrate having an etched cavity along a light path of a VCSEL and a light sensor (see col.5, l.21-43).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
